AirPRO

For Healthier Living!

The **ATS AirPRO** uses the power of UV light and an exclusive photo-catalytic process to make the air in your home healthier. It reacts with and destroys millions of bacteria, viruses, allergens—especially mold—in the air passing through your HVAC system.

FEATURES:

- Energy Efficiency
- Automatic alarm to remind when to change the bulb
- Advanced Oxidation UVC Adjustment
- Ready for any HVAC System
- Expandable

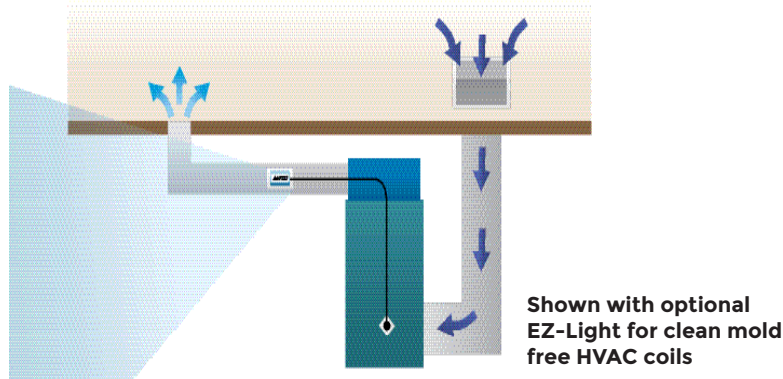

BENEFITS:

- Odorless
- Eliminates microbiological contaminants without chemicals.
- Bacteria, viruses and other organisms are destroyed safely inside a factory sealed and tested stainless steel chamber.

AirPRO System and Parts

Airpro Part #	Description
APA-1200F	AirPRO UV Indoor Air Quality Disinfection System
EZ-Light	Kit to add 12" UVC Lamp (1 ea.)
AS-IH-1013	Dual Spectrum Replacement UV Lamp
94-056-12	Advanced PCO Module

It Makes for Healthier Air!

Ready for any HVAC System
AirPRO comes with a ductboard mounting plate.

The advanced oxidation process is fine adjusted during installation to obtain the exact amount of treatment-based on living space, temperature, humidity and other factors.

The advanced oxidation UVC adjustment.

Extend your AirPRO system to clear mold and other biogrowth inside the HVAD system itself.

Energy Efficiency & Power
A state of the art electronic power supply runs cool and tightly controls the lamp to optimize efficiency and saves energy.

The AirPRO Remote UVC Lamp System
Includes a 12" high performance germicidal UVC lamp with quartz sleeve thermal protection to maximize UV intensity.

Convenience & Safety
The microprocessor system control triggers audible and visual alarms for a reminder to change the lamp or if a lamp goes out.
